The Medicaid landscape continues to evolve in Illinois. Following the implementation of mandatory Medicaid managed care in 2014, the Department of Healthcare and Family Services (HFS) plans to re-launch the managed care model in 2018, expanding the program statewide and reducing the number of participating Managed Care Organizations (MCOs). IHA's presentation will provide a comprehensive overview of HFS' changes to the managed care program; outline IHA's efforts with both HFS and the selected MCOs to improve transparency and accountability; describe HFS' rollout and communications strategy, as well as IHA's provider training opportunities.
- 2:00-2:45pm **On Purpose**
David Dyke, Vice President Product Management at Change Healthcare
Our industry is caught between two worlds: wrestling with a legacy of being mission minded and the reality of being metrics driven. To build organizations that can leverage our legacy in support of our reality, we need to lead people on purpose. We will look at several approaches you can consider as you develop your teams and look at specific areas of revenue cycle that are overflowing with opportunity for better context.
